

Welcome to LORAX!

OVERVIEW

- LORAX Systems is a Nova Scotia-based environmental solutions company. LORAX develops and delivers innovative systems and products that mitigate environmental safety risks. No LORAX product goes to the marketplace before it is proven to enhance the environment. Our product, LineGuardian, is the proven mechanical solution to fuel line leaks. LineGuardian is the world's only precision valve and line system that detects line and connection problem immediately – from invisible pinholes to catastrophic failures – and shuts down the flow of fuel at the source. It is the only certified complete fire safety system available.

THE LORAX PROMISE

- At LORAX, we are driven to provide practical solutions to real world problems. Our product are engineered to provide unparalleled safety and/or environmental benefits to the communities we serve.
